2 Time Hackathon 1st place Winner / Database Engineering / SSRS / SQL / SSMS / Power BI / Python / Snowflake / DBT / Airflow / Flutter / Dart / Kotlin / C# / C / Some ARM assembly / App development / Web development / R / LLM's / AI / Software Engineering

EXPERIENCE

APR 2024 - NOW

SOFTWARE ENGINEERING CONTRACTER / ARGO SHIPPING

I wear many hats for this company as it is a startup and I have recently started doing some contracting work for them helping them with their data and their integrations in azure. I do this through my own company called VanOrdenSolutionsLLC

JAN 2024 – OCT 2024

ANALYTICS CONSULTANT INTERN / EIDE BAILLY

I got to work as a consultant intern that works with customers and helps them with their data I have worked with multiple different companies helping them visualize in power BI and SSRS.

JAN 2024 - APR 2024

CONTRACT DATABASE ENGINEER / TEK SYSTEMS

The church needed to keep me on for another project but couldn't keep me on as an intern since I had been working for them for a year and so they added me as a contractor through this company.

JAN 2023 - JAN 2024

DATA ENGINEERING INTERN / CHURCH OF JESUS CHRIST

I worked with Azure, power BI, SSRS, and SQL to help visualize and engineer data for a worldwide education system and I had a lot of experience and free reigns so I learned quite a lot during my yearlong internship.

SKILLS

- **Coding and Intellect:** I'm Multi language so any langue you throw at me I can learn pretty quick ~ less then 2 weeks. I have an IQ range of 133-149. I also have a 4.0 in college and a full ride.
- **Soft skills:** I'm great with people and all my previous employers love me. The reasons I got my other jobs were my connections to my mangers with the church.
- **Work Ethic:** I am a very hard worker and I get things done. I am an eagle scout and returned missionary.
- **Leadership:** I have trained other coders and I have also given many presentations in front of clients. I know how to work with a team and how to lead them to success.

ACCOMPLISHMENTS

- **BYUI Coding Certificate:** normally takes about 2 years – 3 years of college to accomplish.
- Two years in a row I won first place in the university's school wide hackathon and for the second year the multi university hackathon doing different coding projects.
- I have many small certifications on many different data related topics
- I am power bi certified.
- I have multiple apps on the play store and the fire store and Apple app store
